IPFax

Simple, Secure and Affordable

Say Goodbye to Paper Jams, Busy Signals & Standing by the Fax Machine

Designed to fit the modern workforce, NUSO IPFax lets you send and receive faxes from anywhere - at home, on the road, or in the office. You only need a device with internet and email. It's that simple.

Why IPFax

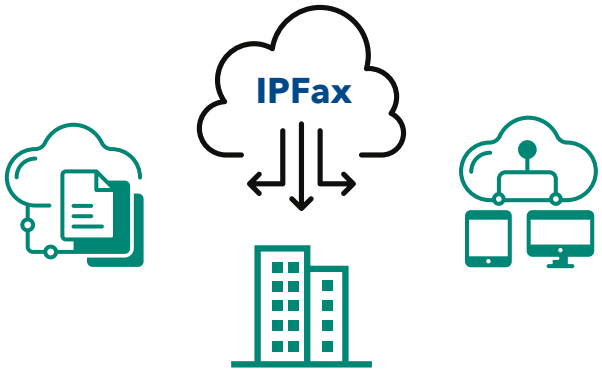
IPFax is easy, secure, and convenient. Streamline your workplace, and never pay for fax equipment again. Easily fax documents too large for email, like presentations, contracts, or user guides.

How IPFax Works

Sending and receiving an IPFax is simple. Your fax document is digitally converted, and the document is sent via the internet to your email address. IPFax saves time and money.

IPFax for Business

- Send & receive faxes by email
- Avoid paper and maintenance costs
- Fax documents more securely
- Use a computer, smartphone, or tablet
- No software or hardware is required
- Provides scalability for any business



HIPAA Compliance

IPFax is available in a Health Insurance Portability and Accountability Act (HIPAA) compliant option.

Traditional Fax Solutions

If your company needs traditional faxing capabilities, NUSO can provide an ATA for legacy fax POTs lines.
