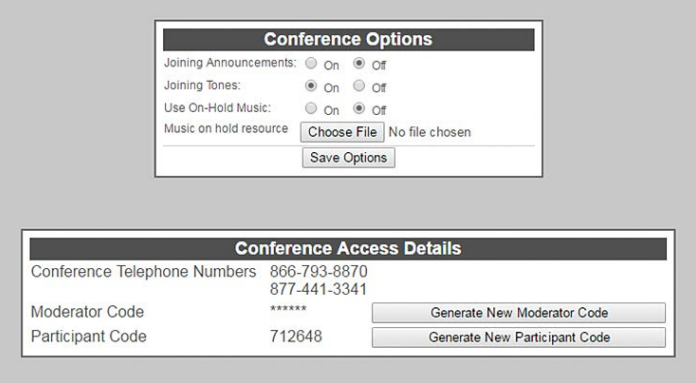
Audio Conferencing

NUSO Audio Conferencing is an easy-to-use service designed to enhance business productivity. This low cost and complete solution provides the capability to host hundreds of attendees with no reservations required and no time limits imposed.

Simply dial the number of the virtual conference and enter the Identification code. It's that simple!



Up to 10 participants

$4.99

per month + $0.019/min

Up to 25 participants

$12.49

per month + $0.019/min

Easy-to-Use Features

Quick Set-up

Access conference controls by using the web-based CommPortal Conference widget. Set up and manage conferences from anywhere using your desktop or smartphone.

Scheduled or On-Demand

Schedule a conference call in advance or add participants on-the-fly by simply dialing out during the conference.

Roll Call Conference Participants and Privacy Lock

Take a roll call of all participants and lock the conference room when everyone is present to enhance security and prevent interruptions.

Real-time Participant List Updates

View who is on the call at any time.

Recording

Record a call through the web-interface or a phone prompt. When the conference call ends, your recording will be available in .WAV format for download, archive or distribution. Use this for review, transcription or record keeping.*

Muting

Mute all participants for an important announcement or mute selectively as the topic requires.

*Call Recording laws may differ by region. Check local laws about call recording.
